

## Request for Refund for Online Privacy Protection

I, the undersigned, was affected by the recent \_\_\_\_\_ (*list name of breach*), which occurred on \_\_\_\_\_ (*list relative date of breach*). Because of this unauthorized release of my personal, employment, and/or financial information, I was forced to acquire online privacy protection from IronWall360, to have them search and remove any instances where this information may show up on the Internet.

As a \_\_\_\_\_ (*list if you are a sworn officer, judge, social worker, public-facing employee of the organization, etc.*) I am particularly sensitive to the exposure and release of my private information online. It can compromise my safety and that of my family if my name and address are available on the Internet.

I paid \_\_\_\_\_ a year (*list price you paid yearly for IronWall360 protection*), and my receipt is attached to this form (provide our email confirmation, or request a receipt from us).

I am requesting that you pay for this service for one year to help protect my information. You can also contact the company directly for further details on this service, or to protect employees all at once.
